THE barnyard organ of the Central Park wild beasts is agitating its Intellectual Department with the question, "Are Americans Irreligious?" Get one American on your staff, and find out how it is yourself.

IT IS EXCEEDINGLY strange that such writers as Nordhoff, while investigating Southern affairs, are seemingly unable to find a respectable colored Republican in that section. Is it possible that the blacks are all scoundrels or demagogues?

JEFF. DAVIS was kissed by and kissed a number of Texas young ladies. This kind of osculatory conciliation, after Jeff. ruined the entire South, is worthy of Brooklyn. At the same time Mrs. Jeff. was enjoying strawberries and cream with an old friend in Memphis. So goes the world.

UNCLE SAMMIE TILDEN has not yet explained the mysterious disappearance of that \$280,000 of the stock of the St. Louis, Alton and Terre Haute Railroad Company. Until he does his chances for the Presidency and his claim to be the great Democratic reformer are alike rather gauzy. The heirs of the Litchfield estate in St Louis should be interviewed on this subject that the public may know their estimate of Boss Tilden's character. Why doesn't the Globe-Democrat look into this

Economy in public expenditures is to be commended no matter from what source it ticed by the New York Democracy in reducing the wages of laboring men while calculated to win favor for that party. It is a characteristic act, however, of the aristocrats, demagogues and plunderers who have control of the affairs of the Metropolis, and the workingmen of the country will not soon forget it.

AND now the New York Sun, organ of blackmailers, discharged detectives, thieves and prostitutes, has begun to denounce Postmaster General Jewell as an incompetent official. Alluding to the acquittal of Contractor Hinds, it takes occasion to abuse both Mr. Jewell and Senator Spencer. The reference to Senator Spencer, although gratuitous, because his name was not mentioned in the trial in connection with the case was to have been expected, and the that the Sun has found fault with him. Praise from Sir Hubert is praise indeed: but to be denounced by the Pirate of the Press is the greatest meed of praise.

THE schemers who charged that one Stribling, a member of the Alabams Legislature, was drugged for the purpose of keeping him out of the way pending the election of Senator Spencer, are likely to come to grief. The details of their story having been made public, "Col." Perrine. the miscreant who concocted it, is to be held to account by several persons who are charged by him with having been accomplices in the alleged drugging. This is a fact, together with others, that will be ignored entirely by the Detective press in its assumption that Spencer is guilty of all that Perrine charged against him.

A CORRESPONDENT suggests that cactus should be planted in the reservoirs, for the purpose of making our supply of water pure, and incloses the following elipping from a correspondent of the Chicago Inter-Ocean accompanying the Black Hills expe-

"One evening, on the banks of the Woman's Fork, they found the water yellow with mud and sickening to drink. An officer remembered an experiment he once saw tried and re peated it. A pail of water was brought from the stream, and into this were thrown pieces of cactus, slices cut in two and cleared of roots and dust. The mixture was stirred vigorously for six or eight minutes, the cactus taken out and the water rapidly settling rendered clea-

SPEAKING of impure water, Baltimore and Philadelphia, way stations on the line of railroad between Washington and New York, are entitled to pre eminent considcration. The water supplied to those villages not only smells badly, but taints everything with which it comes in contact. The Potomac water is mountain dew compared with it. Notwithstanding this, the people submit to it with a feeble protest, as they do to dirty streets, stinking surface drainage and other discomforts. A visit to either one of these places will satisfy any citizen of the District that Washington and Georgetown are entitled to the front rank as regards cleanliness and sanitary condition in general.

WHEN a new Government official is installed nowadays it is the custom to make a great howl about his design to reform things generally. If he removes his office desk to another portion of the room than the one it occupied under the administration of his predecessor the world is at once informed that he has inaugurated a new system for the rapid dispatch of business. The inference from this is that his predecessor was incompetent. The Democrats take advantage of this inference to injure the Republican party. No one will deny to a careful and conscientious official all the honor he may deserve for the reforms he may legitimately establish, but a careful and conscientious official will avoid, as far as possible, any effort to build up a reputation at the expense of others and to the injury of his party. No two men do business alike, and, while new brooms proverbially sweep clean, it must be remembered that all the virtue and independence of the party is not encompassed by recentlyappointed officials.

IT IS APPARENT from the result of the flushing of all the water-mains in the District yesterday morning that the difficulty of which so much complaint is made does not exist in the water-pipes, but in the water itself. The flushing referred to will have the effect to prove to our citizens that Colonel Lubey, the water registrar, has done everything in his power to remove the nuisance. Now let the engineer officers do as much by drawing off the water from the reservoirs and cleaning them of the filth and alluvial deposits which have accumulated in their bottoms during a number of years. We are assured that this can be done by connecting the mains directly with the Potomac, and emptying the reservoirs through the sluice-ways provided for that purpose. Until it is done no one | minutes.

will be satisfied that all possible precaution against disease has been attempted. The investigations by the Board of Health are well enough in their way; but the result will not be so acceptable to the public as a practical effort to change the water from the fountain head down to the smallest spigot.

BY SOME strange error, Nordhoff, the Southern correspondent of the barn-yard organ of the Central Park wild beasts, admitted a bit of truth into one of his Alabama letters. He affirms that the debt of that State has increased faster under Democratic than Republican administrations. This fact has frequently been demonstrated in these columns; but the Opposition press has ignored it just as they do now that it appears in Mr. Nordhoff's letters. The truth is that, regardless of truth or decency, the Detective press seeks only to defame the Republicans of the South, and persistently refuses to give them credit when credit is due to them. The especial wonder is that the Herald allowed its "Wandering Jew" to make this tardy ac knowledgment of a well-established fact.

THE New York Herald, double leaded barn-yard organ of the Central Park wild beasts, and Tom Allen, the prize-fighter, refers to the latter as a statesman, and extolls him as an "ex-pounder of the constitution." The wit which is dimly discovered in this allusion is borrowed, and the pun is as old as the hills. The circumstances when the Herald will discover that the reading public is simply disgusted with its attempts to be funny over the imaginary or real acts of wild beasts, are not likely to arise. "Mr." Allen, as it calls him, retires from the ring with a better reputation as regards respectability than many of the writers for the Herald ever will enjoy. He may be a rough, as the public estimates such a man, but he has had independence and courage enough to stand up and fight

open and above-board, and would no doubt

scorn to betray the confidence of a private

interview, as the Herald often does-or

worse, print interviews which never oc

THE SCHOOLS OF WASHINGTON. There are few spectacles more pleasant to the good citizen than that of the crowds of neatly dressed children that now day by day are seen upon the streets, attending, full of excitement and hope, the school exercises, at which the honors won by the little lads and lassies, as well as by their big brothers and blossoming sisters, are announced. The year's school work all done, pleasant partings, marred by no fear comes. But the kind of economy prac- in their hopeful hearts of never meeting again, and then the prospect of the long summer days' ease, of bright waters and the salaries of officials are increased, is not | green trees, bright places for sport and cool shades for rest, stretches out before them with a glamour of novel delight that

older eyes will never see again. To the generality of Washingtonians these scenes are an especial pleasure. In no small degree the public schools of this city are the work of the local press. Especially has THE REPUBLICAN been forward in this work. Early in advocacy of the public school system. eager to turn to its advantage all opportunities, prompt to detect defects and suggest improvement, indefatigable in support and sagacious in pointing out means for its widest development, the Washington press may well felicitate itself upon its work. The Franklin and Jefferson, the Sumner and the Lincoln buildings are as much monuments of Postmaster General is to be congratulated the vigor and industry of the Washington press as is THE NATIONAL REPUBLICAN building itself. More than half the journalists of the local press are to-day engaged in the work of giving the public full intelligence of the workings of the public schools.

To the faithful teachers the public owe a debt of gratitude that is not paid by the Treasury in this month's settlements. Their work for the year is before the people. Exceptions to the rule of ample competency and earnest labor there may be, but we are but the spokesman of the public voice when we say to the teachers of the city, "Well done, good and faithful servants.

Nor are the just encomiums that such times suggest to be confined to the public school teachers. The numerous gentlemen and ladies who conduct private schools, as well as the teachers, who, like the excellent order of the Brothers of Christian schools, devote themselves with untiring energy to the education of youth in parochial academies, merit also general thanks. These are the special benefactors of large portions of our fellow-citizens.

Washington has cause to be proud of her schools. From great ones like Georgetown College and Columbian University to the bright little primaries, all are doing a good

"We fear no blinded bigot's rule, When by the church spire stands the school."

New Books. We have the first and second parts of "Our Country," written by Benson J. Lossing and llustrated by F. O. C. Darley. It is a household history, and admirably adapted for old and young. It dates from the discovery of America to the one hundredth anniversary o the Declaration of Independence.

Conspiracy Against Popular Education.

(From the Pittsburg Commercial,)
We have on various occasions adverted to the strong prejudice which exists at the South against educating the colored people, lest it should "unfit" them for their "proper sphere." We observe that, in connection with the proposed revision of the State constitution of North Carolina, the suggestion that the suffrage shall be limited by an educational qualifrage shall be limited by an educational quali-fication is rapidly gaining in popularity in Democratic quarters. The manifest design of the measure is to limit the influence of the colored vote. In Memphis, too, the city school board proposes to enter upon certain measures of retrenchment which even the Appeal admits will effectually kill the public schools." In fexas and Arkansas the public school system as beer practically destroyed, and in Georgia, Alabama and Virginia the Democrats are con cting measures with a view to producing the some results. Everywhere in the South that party seems engaged in a wicked conspiracy rainst the enfranchising and educating spirit

A Tar-Heel Sham-Conservative Plot Defeated. [From the Harrisburg Telegraph.] North Carolina has a Republican Governor, but the Lieutenant Governor is a Democrat, The Governor intended to go to Boston to parparticipate in the Bunker Hill festivities And the Democrats of that intensely honorable State projected a nice little scheme to be played while the Governor was absent. The present judge of the Supreme Court appears o be a Democrat, but does not appear to suit his party very well. Some of the managing politicians of the judge's political faith secured his resignation to be presented to the Lieutenant Governor as soon as his chief left the State and the duties of acting Governor fell upon him. Then some other important offices were to be vacated by their incumbents and successors, in favor of some of the schemes, the accomplishment of which the Governor has steadily obstructed, were to be appointed by the Democratic acting Governor. To prevent the success of this nice little scheme Gov. Brogden has been forced to remain away from Hoston, and so fail to appear at the Centennial, to which he had been invited and had an-nounced his intention of attending. This This scheme of the tur-heel Democrats bears a close resemblance to a plot for stealing the Sunday dinner of a man who is going to church. But then, as it was to be done by chivalrous sons of Carolina, we suppose it must be all right. Only we have been educated in a different

school, and so we are unable to appreciate that fine sense of honor for which our Southern brethren—and particularly our Carolina brethren—are so justly celebrated. Max Miller happened at Florence into the institute of Superior Studies when Projessor Trezza was expounding Cicero to his class, and the whole audience rose to its feet and gave him a round of applianse which lasted some
